KADİR AKDOĞAN

IT SUPPORT

Summary:
IT professional with hands-on experience in technical support, network and systems administration, and infrastructure management. Skilled in MikroTik and Ubiquiti networking technologies, IP/analog camera systems, and Akınsoft business software solutions. Practical expertise reinforced by vocational training in software development, networking, and server technologies, with a strong personal interest in cybersecurity. Known for analytical problem-solving, attention to detail, and a consistent focus on delivering reliable, efficient, business-focused IT solutions.
